Front-End Web Developer specializing in React.js, Next.js, and TypeScript with hands-on experience building responsive web applications, booking systems, admin dashboards, and payment integrations. Experienced in developing scalable frontend architectures, integrating REST APIs, and optimizing user experience using modern technologies such as React Hooks, Tailwind CSS, and Next.js. Built and deployed multiple production-ready projects on Vercel and Netlify with a strong focus on performance, maintainability, and responsive design.

SKILLS

- **Frontend:**
  React.js, Next.js, JavaScript (ES6+), TypeScript, React Hooks, Tailwind CSS, Bootstrap, Responsive Web Design, Component-Based Architecture, Reusable Components, REST API Integration, API Consumption, State Management, Frontend Performance Optimization, Cross-Browser Compatibility, SEO Optimization, SSR (Server-Side Rendering), CSR (Client-Side Rendering)
- **Backend:**
  Node.js, Express.js, Nest.js, RESTful API Development, CRUD Operations, Authentication & Authorization (JWT), Prisma ORM
- **Database & Tools:**
  PostgreSQL, MySQL, Docker, Git, GitHub, Version Control, Postman, Vercel, Netlify, Deployment Workflow, Midtrans Payment Gateway
- **Soft Skills:**
  Problem Solving, Teamwork, Communication, Adaptability, Time Management
- **Languages:**
  Indonesian (Native), English (Professional Working Proficiency)

EDUCATION

Universitas Pendidikan Indonesia (UPI) – Bachelor of Computer Science
2021 – 2026 | GPA: 3.79 / 4.00

LICENSES & CERTIFICATION

Job Connector Web Development - Purwadhika Digital Technology School (2025)
Certificate

Belajar Git Pemula - CODEPOLITAN (2026)
Certificate

Sertifikat Kelas Belajar JavaScript Dasar - CODEPOLITAN (2026)
Certificate

WORK EXPERIENCE

Web Developer HCS Intern - PT Len Industri (Persero)
Feb 2024 – May 2024 | Bandung, Indonesia

- Developed an internal internship management web application to streamline certificate eligibility verification and document tracking for approximately 200 internship participants.
- Built participant search and filtering features that reduced manual lookup time for HR staff when managing records of 200+ interns.
- Developed an admin dashboard to monitor and manage internship data for approximately 200 participants in a centralized system.
- Created a participant detail page enabling administrators to verify submission requirements and approve certificates efficiently for 200+ internship participants.

- Developed a responsive web application using HTML, CSS, JavaScript, PHP, and database integration, supporting full CRUD operations and improving HR administrative workflows.
- Collaborated directly with the Human Capital Services division to gather business requirements and enhance the efficiency of internship administration processes.
- Assisted in daily administrative operations, including attendance tracking and data management for approximately 200 interns.

PROJECTS

Stayza Booking App - https://stayza-renting-property.vercel.app/

- Collaborated in a 2-member development team to build a property rental booking platform, taking ownership of transaction management and reporting features.
- Implemented end-to-end booking workflows, including reservation validation, booking status management, and transaction processing.
- Integrated 2 payment methods (Midtrans payment gateway and manual payment verification) to support secure and flexible booking transactions.
- Built a review management system enabling users to submit reviews and property owners to respond to customer feedback.
- Developed an interactive sales reporting dashboard featuring transaction analytics and data visualization to support business decision-making.
- Implemented REST API integration and developed 10+ responsive UI components for booking, payment, and reporting functionalities.
- Collaborated through Git-based version control, code reviews, and feature integration in a fast-paced team environment.
- Utilized React.js, Next.js, Tailwind CSS, Node.js, Express.js, Prisma ORM, and MySQL to deliver a full-stack web application.

Website Kebun Taniku - https://kebutaniku.store/

- Developed a professional company profile website to showcase agricultural products, services, and brand identity.
- Built using React.js, Next.js, Tailwind CSS, and RESTful APIs to ensure scalability and optimal performance.
- Implemented reusable frontend components and responsive layouts to improve maintainability and user accessibility across devices.
- Implemented modern UI/UX principles, intuitive navigation, and optimized performance across devices.

Personal Portfolio Website - https://personal-website-xi-ten-71.vercel.app/

- Built and deployed a personal portfolio website using Next.js and TypeScript to showcase web development projects, technical skills, and responsive UI implementations.
- Implemented SEO optimization, responsive design, and reusable components to improve accessibility and frontend performance.

ORGANIZATIONAL EXPERIENCE

An-Nuur Mosque Youth Association (KARISMA AN-NUUR)

- **Head of Organization** (2024 - 2027)
  Led and coordinated organizational activities, managed team members, and oversaw youth programs and community initiatives.

Software Engineering Student Association (HIMARPL)

- **Personal Development Staff** (2022 - 2023)
  Supported personal development programs by organizing training, workshops, and activities to improve members' soft skills, leadership, and professional growth.

Community Youth Development

- **Head of Internal** (2021 - 2024)
  Managed internal coordination, member development, and organizational administration to ensure effective teamwork and smooth internal operations.
